HOMEMADE MASKS

Activity Description

Many supplies are needed to assist to front-line workers in response to the COVID-19 pandemic. As more staff return to the workplace, masks will be needed to keep front-line community workers and their clients safe. You can help by creating homemade face masks to help supplement the limited supply.

Supplies

- Sewing machine and thread
- 100% cotton fabric (preferably double-layered with a tight weave)
- 1/8" flat elastic or 4 fabric ties made of the same fabric
- Scissors
- Ruler
- Straight pins

Cutting your Material

For mask:

- Adult: Cut one fabric rectangle 16" long and 8.5" wide
- Child: Cut one fabric rectangle 14" long and 6.5" wide

For elastic ear loops:

- Adult: Cut two 7" long pieces of elastic or up to 8" for a larger adult size)
- Child: Cut two 6" long pieces of elastic

For fabric ties (if you aren't using elastic):

- Cut four rectangles 18" long by 1.75" wide. Fold the long sides to meet in the middle, then fold in half again to encase the raw edges. Stitch down the length of the rectangles along the edge to create the ties. Ties can be cut slightly shorter for a child mask.

Simcoe Muskoka

Directions

- Cut fabric to adult or child size indicated above.
- With the fabric's pattern facing up, fold in half by bringing the two 8.5-inch sides together. Sew along the top edge with a ¼-inch seam allowance. This will create a tube.
- Turn the tube inside out so the right sides (pattern facing up) are on the outside. Press flat. Fold the two non-seamed edges inside ½ inch to create a folded finished edge. Press to smooth.
- To make the pleats, measure 11 ½ inches up from the bottom of the long edge and mark with a fabric pen or chalk. Make another line 1 inch above the previously marked line. Fold the top (seam edge) down to the first line making a crease. Flip the piece over, fold the crease edge down to the second line and press. Pin in place.
- Repeat the previous step two more times to create two additional ½ pleats. For further guidance on this step, watch this step-by-step [tutorial](#)
- To attach the straps or elastics, place the pre-measured elastics or ties at the top and bottom of the mask between the two layers of fabric and pin.
- Sew the sides of the mask and trim the threads. Your mask is now complete!
- Take a picture of completed kit and tag @UWSimcoeMuskoka on [Instagram](#), [Facebook](#) or [Twitter](#)
